BRENTWOOD WHEELBARROWS

PRODUCT FEATURES

- **ROBUST CHASSIS**

Powder-coated, structural steel chassis is flared for lateral support and features an arched steel stabilizing plate that allows for additional foot clearance.

- **BENT FRONT BRACES**

Heavy gauge, powder coated steel braces are designed for durability (exceeds 1,200 lbs of pressure).

- **RUGGED WHEEL ASSEMBLY**

Turf and no-flat tire options, sturdy 3/4" steel axle, and sealed precision bearings that resist moisture and dirt.

- **HEAVY-DUTY PAN & HARDWARE**

Our patented shovel-friendly pan is formed from UV-stabilized, heavy gauge high-density polyethylene (HDPE) and secured to the chassis with smooth, recessed bolts and premium flange nuts.

- **RIGID NOSE PIECE**

Powder coated, heavy-gauge steel ensures a rigid frame assembly.

- **N. AMERICAN HARDWOOD HANDLES**

Varnished handles are engineered for heavy use and efficient lifting.
